

WEEK 3

PS309 - ONE CREDIT COURSE REGISTRATION &

COURSE EXEMPTION SYSTEM

UI/UX DESIGN (FIGMA)

Aim

To design a user-friendly Figma interface for a one-credit course registration and course exemption system, simplifying processes for students and administrators.

Objective

1. Simplify course registration and exemption workflows.
2. Ensure ease of navigation and accessibility.
3. Provide tools for managing registrations and exemptions.
4. Ensure compatibility across devices.

Overview

The system enables students to register for one-credit courses, submit exemption requests, and track their status. Administrators can review, approve, or manage requests efficiently. The design emphasizes clarity, simplicity, and responsiveness.

Scope

1. **Student Features:** Course catalog, registration, exemption requests, and status tracking.
2. **Admin Features:** Request management, course updates, and notifications.
3. **General:** Responsive design, role-based access, and notifications.
